Step by Step Instructions and Optional Related Equipment

1. Assemble strainer assembly as shown, referencing page 2 as necessary. The slots in bracket 451-2606Y1 fit the bolts indicated below left.
2. The 3/4" hose barb elbow feeds the supply to the Tower. The 1-1/2" hose barb feeds back to the tank. (Below Right)

3. Plumbing for under the tanks is assembled as shown above left. Reference Bill of Materials on page 3 as necessary. Begin by threading plug into bung that will not be used. Thread short- or 4" long pipe nipple into the rear tank bung. Clamp 1-1/2" hose along frame using vinyl clamps and 1/2" bolts for support.
